

# Sixpenny Handley First School and Nursery

## Our School Aims

At Sixpenny Handley First School we aim to educate all our children and help them to grow up to lead safe, happy, healthy and successful lives. We do this by ensuring our Learning Behaviours drive our curriculum and develop the child as a whole across all areas of the curriculum. We want our children to understand what it means to be Scientists, Artists, Mathematicians, Geographers, to name but a few!

Our Learning Behaviours reflect not only what our children do in school but prepare them for outside of school and encourages learning in everything that they do – Learning Behaviours for life!
